TOOLS REQUIRED OUTILS NÉCESSAIRES

SAFETY INFORMATION INFORMATION DE SÉCURITÉ

*Please read and understand this entire manual before attempting to assemble, operate or install the product.

*Handle the tempered glass with caution! Improper handling the glass can cause it to shatter suddenly in small pieces (never pointed fragments). Do NOT put glass panels on hard surfaces, always work on clean and soft surface (e.g. towel). Shattering may occur otherwise!

*HEAVY PRODUCT! You will need at least two people to install this unit properly. Recommend to use 2" x 4" wood stud framing behind the wall

WARNING

*Manufacturer is not responsible for any damage to the unit or personal property caused by improper installation. If you disregard instruction warnings, your warranty will be voided.

CAUTION

*Carefully remove product from packaging and keep packaging until installation is complete.

*Inspect all parts for damage.

*Install the shower on a floor that is level and able to accommodate the weight of the unit and an occupant.

*Please, consult local building codes and compliance standards prior to installation and ensure conformity.

PREPARATION

*Before beginning assembly of product, make sure all parts are present. Compare parts with package content list .

*If any parts missing / damaged or other problems, please contact your local distributor or supplier directly .

*Consult your local building codes with questions on installation compliance standards

* Veuillez lire et comprendre ce manuel dans son intégralité avant d'essayer d'assembler, d'utiliser ou d'installer le produit.

* Manipulez le verre trempé avec prudence! Une manipulation incorrecte du verre peut provoquer sa rupture soudaine en petits morceaux (jamais en fragments pointus).

Ne posez PAS de panneaux de verre sur des surfaces dures, travaillez toujours sur une surface propre et douce (par exemple, une serviette).

Briser peut se produire autrement!

* PRODUIT LOURD! Vous aurez besoin d'au moins deux personnes pour installer cette unité correctement. Recommander à utiliser montant de bois de 2 "x 4" encadrant derrière le mur

AVERTISSEMENT

* Le fabricant n'est pas responsable des dommages causés à l'unité ou aux biens personnels par une installation incorrecte. Si vous ne tenez pas compte des avertissements pédagogiques, votre garantie sera annulée

MISE EN GARDE

* Retirez soigneusement le produit de l'emballage et conservez-le jusqu'à la fin de l'installation.

* Inspectez toutes les pièces pour tout dommage.

* Installez la douche sur un sol de niveau et capable de supporter le poids de l'appareil et de son occupant.

* Veuillez consulter les codes du bâtiment locaux et les normes de conformité avant l'installation et vous assurer conformité.

PRÉPARATION

* Avant de commencer l'assemblage du produit, assurez-vous que toutes les pièces sont présentes. Comparer des pièces avec liste du contenu du paquet.

* Si des pièces manquent / sont endommagées ou d'autres problèmes, veuillez contacter votre représentant local distributeur ou fournisseur directement.

* Consultez vos codes du bâtiment locaux avec des questions sur les normes de conformité d'installation

WALL JAMB INSTALLATION INSTALLATION DU PROFILÉ MURAL

1-2. Place the wall jamb (2) to the size indicated in Figure 1, keep it vertical level, then mark the holes position.

3. Use the drill bit $\Phi 5/16"$ ($\Phi 8\text{mm}$) to drill four holes.

4-6. Hammer wall anchors (1) with a rubber hammer and attach wall jamb (2) with screws (3).

1-2. Placer le jambage (2) à la taille indiquée à la figure 1 et garder le jambage en position vertical. Marquer l'emplacement des trous.

3. Utiliser le foret 5/16po ($\Phi 8\text{mm}$) pour percer quatre trous.

4-6. Marteler les ancrages (1) avec un maillet en caoutchouc et fixer le jambage (2) avec les vis(3).

WALL JAMB INSTALLATION INSTALLATION DU PROFILÉ MURAL

1-2. Place the wall jamb (2) to the size indicated in Figure 1, keep it vertical level, then mark the holes position.

3. Use the drill bit $\Phi 5/16"$ ($\Phi 8\text{mm}$) to drill four holes.

4-6. Hammer wall anchors (1) with a rubber hammer and attach wall jamb (2) with screws (3).

1-2. Placer le jambage (2) à la taille indiquée à la figure 1 et garder le jambage en position vertical. Marquer l'emplacement des trous.

3. Utiliser le foret 5/16po ($\Phi 8\text{mm}$) pour percer quatre trous.

4-6. Marteler les ancrages (1) avec un maillet en caoutchouc et fixer le jambage (2) avec les vis(3).

WALL JAMB INSTALLATION INSTALLATION DU PROFILÉ MURAL

1-2. Place the wall jamb (2) to the size indicated in Figure 1, keep it vertical level, then mark the holes position.

3. Use the drill bit $\Phi 5/16"$ ($\Phi 8\text{mm}$) to drill four holes.

4-6. Hammer wall anchors (1) with a rubber hammer and attach wall jamb (2) with screws (3).

1-2. Placer le jambage (2) à la taille indiquée à la figure 1 et garder le jambage en position vertical. Marquer l'emplacement des trous.

3. Utiliser le foret 5/16po (8mm) pour percer quatre trous.

4-6. Marteler les ancrages (1) avec un maillet en caoutchouc et fixer le jambage (2) avec les vis(3).

FIXED PANEL & BOTTOM ANCHOR INSTALLATION PANNEAU FIXE ET FIXATION INFÉRIEURE

1. Insert the fixed panel (5) into the wall jamb(2);
2. Install the bottom pad(10) and the bottom anchor(11) on the fixing panel according to figure 2;
3. Drill holes according to the position of the screw hole in the bottom anchor(11);
4. Plug into the wall anchor, fix the bottom anchor with screw , cover with cap.

1. Insérer le panneau fixe (5) dans le jambage (2).
2. Installer le joint inférieur (10) et l'ancrage inférieur (11) sur le panneau fixe comme indiqué sur la figure 2.
3. Percer les trous selon la position des trous de vis de l'ancrage inférieur (11).
4. Insérer l'ancrage inférieur dans le jambage mural, mettre l'ancrage inférieur en place avec les vis et couvrir avec le couvercle.

SUPPORT BAR INSTALLATION INSTALLATION DE BARRES DE SUPPORT

1. Install the support bar as shown in figure 1;
2. Install the support bar on the fixed panel and drill the hole according to the position of the screw hole;
3. Plug the wall anchor into the wall;
- 4-6. Secure the support bar with screws(3) and cap(6)(7), insert pad (20) in the gap between the fixed panel and the glass clamp , tighten the screw(22) with allen key.

1. installer la barre de support comme indiqué sur la figure 1;
2. installer la barre de support sur le panneau fixe et percez un trou en fonction de la position du trou de vis;
3. Installer la fixation murale sur le mur;
- 4-6 Fixer la barre de support avec les vis (3) et le capuchon (6) (7), insérer le tampon (20) dans l'espace entre le panneau fixe et l'attache à verre, serrer la vis (22) avec la clé Allen.

HINGE INSTALLATION INSTALLATION DES CHARNIÈRES

1. Make the hinge to 90 degree, loose the bottom Hinge(9), then fix it on the Fixed Panel(5) with Allen Key, As shown in figure 1-2;
2. Make the hinge to 90 degree, loose the top Hinge(9), then fix it on the Fixed Panel(5) with Allen Key, As shown in figure 3-4.

1. Placer la charnière à 90 degrés et desserrer la charnière du bas (9). Fixer celle-ci sur le panneau fixe (5) avec une clé Allen comme montrer aux figures 1-2.
2. Placer la charnière à 90 degrés et desserrer la charnière du haut (10). Fixer celle-ci sur le panneau fixe (5) avec une clé Allen, comme montrer aux figures 3-4.

DOOR PANEL & HANDLE INSTALLATION INSTALLATION DU PANNEAU DE PORTE ET DE LA POIGNÉE

1. Loosen the screws with Allen Key, insert the Door Panel(8) to hinges' groove, then tighten the screws, Figure 1-4 shows.

2. Loosen the Door Handle(19), then install it to Door Panel(8), Figure 5-6 shows;

3. Install the magnetic strip(18) on the edge of the door panel .

1. Desserrer les vis avec la clé Allen, insérez le panneau de porte (8) dans la rainure de la charnière, puis serrez les vis, comme illustré à la Figure 1-4;

2. desserrer la poignée de porte (19), puis installez-la sur le panneau de porte (8), comme illustré à la figure 5-6;

3. Installer la bande magnétique (18) sur le bord du panneau de porte.

SIDE PANEL INSTALLATION INSTALLATION DU PANNEAU LATÉRAL

1-2. Insert the side panel (28) into the wall jamb (29), adjust and keep it parallel , and install the magnetic seal (18) on the side panel ;
 3-4. Install the long and short Vertical Gasket (12) on the fixed panel and door panel, as shown in Figure 3-4;
 5-6. Use the Allen key to adjust the expansion distance of the door panel (8) to make it in a good closed state with the side panel.

1-2. Insérer le panneau de côté (28) dans le jambage mural (29), ajuster celui-ci et le maintenir parallèle. Installer le joint d'étanchéité magnétique (18) sur le panneau.
 3-4. Installer les joints verticaux (12) long et court sur le panneau fixe et le panneau de porte (montrer aux figures 3-4).
 5-6. Utiliser la clé Allen pour ajuster la distance d'expansion du panneau de porte (8) pour assurer que celui-ci soit bien mis en place avec le panneau de côté.

SEAL ALUMINUM & BOTTOM ANCHOR INSTALLATION INSTALLATION DU JOINT ALUMINIUM ET FIXATION INFÉRIEURE

1. Put the seal aluminum(14) into into the bottom anchor (11) ;
2. Cover the bottom anchor(15) and bottom pad(16) on the seal aluminum as shown in figure 2.
- 3-6. Mark the drilling position of the bottom anchor (15) of the side panel (28) with a pencil, and install the anchor (15) ,bottom pad (16) and the cap (17) after drilling, as shown in Figure 3-6.

1. Placer le joint en aluminium (14) dans la fixation inférieure (11);
- Couvrir la fixation inférieure (15) et le tampon inférieure (16) sur le joint en aluminium comme illustré à la figure 2.
- 3-6 Marquer la position de perçage de la fixation inférieure (15) sur le panneau latéral (28) avec un crayon, et installer la fixation (15), letampon inférieure (16) et le capuchon (17) après le perçage, comme indiqué dans Figure 3-6.

GLASS SHELF INSTALLATION INSTALLATION DE LA TABLETTE EN VERRE

1-3. Loosen the bracket (26) (27) and install them on the glass shelf (25) as shown in Figure 3;
 4-5. Fix the installed glass shelf (25) on the side panel and keep it horizontal, as shown in Figure 4 -5;
 6. Mark the drilling position of the Bracket (27) with a pencil ;
 7-9. Remove glass shelf then drill hole with Drill bit $\Phi 5/16''$, hammer blow Wall Anchor(1) by rubber hammer, install glass shelf then fix the Bracket(27) on the wall with Screw(3) .

1-3. Desserrer le support (26) (27) et installer ceux-ci sur la tablette (25) comme montrer à la figure 3.
 4-5. Fixer la tablette (25) sur le panneau de côté et maintenir celle-ci à l'horizontale (montrer aux figures 4-5).
 7-9. Enlever la tablette et percer les trous avec un foret 5/16po . Marteler le jambage mural (1) avec un maillet en caoutchouc. installer la tablette en fixant le support (27) sur le mur avec une vis (3)

CAP INSTALLATION INSTALLATION DU CAPUCHON

1. Drill holes according to the position of the holes in the wall jamb ;
2. Secure side panel and fixed panel with screws(4) and cap (6) (7).

1. Percer les trous en vous référant à l'emplacement des trous du jambage mural.
2. Fixer le panneau de côté et le panneau fixe avec les vis (4) et les couvercles (6) (7).

BOTTOM GASKET INSTALLATION INSTALLATION DU JOINT INFÉRIEUR

1. Measure the actual length of the Bottom Gasket. Cut it with a knife and install it at the bottom of the door panel, as shown in Figure 1-3.

2. Apply a silicone around the outside of wall jamb, fixed panel and side panel to avoid the water leaks ; Ensure the shower door closes tightly and open smoothly.

1. Mesurer la longueur actuelle du balai de porte. Couper et installer le balai de porte au bas du panneau de porte (Montrer aux figures 1-3)

2. Appliquer le silicone autour de l'extérieur du jambage, du panneau fixe et du panneau de côté pour éviter fuites d'eau. Assurer que la porte de douche se ferme et s'ouvre bien.

Warranty 2 years against original manufacturer defects, installed by professionals and under normal use.
(Garantie 2 ans contre les défauts de fabrication d'origine, installée par des professionnels et en utilisation normal)
